

HOW DO YOU ENGAGE IN MATH?

In partnership with your principals and teachers, **we are asking you to complete a survey to share your experiences with engaging in your math classes.** Your responses will help us understand how to make math classes more engaging for you.

- We invite **middle and high school students** in Bloomington Public Schools to complete a **10-minute survey** about your engagement in math.
- You will receive a **\$10 electronic gift card** within two months of completing the survey. The gift card will be emailed from your school district to your parent/guardian.

The survey can be accessed by QR code.

<https://nimble.li/a988w7l9>

- Your survey responses will be kept **CONFIDENTIAL**—we will not share your individual responses with people outside the research team.
- Participation is **VOLUNTARY**—you may choose not to take the survey. Choosing not to take the survey will not impact your experiences in your school.

If you have any questions about this study, please contact Dr. Samantha Holquist
