

Older youth in care

Utah

As young people transition to adulthood, they face significant opportunities and challenges. This is particularly true for those who age out of the child welfare system. Older youth in care experience the child welfare system differently than other age groups: These differences may include reasons for entering care, the types and number of placements, the length of time they stay in care, and how they exit care. To help young people successfully transition to adulthood, it is essential that child welfare agencies provide them with supportive relationships, educational opportunities, career preparation, and other forms of support. These resources will equip them with the necessary tools to set and achieve their goals.

Entering foster care¹

- Dataset #235, AFCARS Foster Care File FY2018, Version 3
- Dataset #239, AFCARS Foster Care File FY2019, Version 2
- Dataset #255, AFCARS Foster Care File FY2020
- Dataset #274, AFCARS Foster Care FY2021; Dataset #275, AFCARS Adoption FY2021

Notes

¹All figures related to entering foster care include young people who entered care during the FFY.

²All rates are calculated using general population data from the U. S. Census Bureau from 2018, 2019, 2020, and 2021 which are publicly available on the U.S. Census Bureau website.

³For young people entering care in FFY 2021. Other entry reasons include drug or alcohol abuse by the child, child's disability, relinquishment, and parental death.

⁴We did not show counts for the additional breakdowns in this section because of small cell sizes.

⁵These percentages are based on total number of young people ages 13-17 entering foster care during the FFY.

⁶If a young person is determined to be of Hispanic origin, they are only counted as Hispanic and are not included in any other racial/ethnic categories. Data for the general population under age 20 in 2021 are from the U. S. Census Bureau which are publicly available on the U.S. Census Bureau website.

⁷All figures related to young people currently in care include those in foster care on the last day of the FFY.

⁸Average number of times young people were removed from the home, including the most recent removal.

⁹Current placement setting as of September 30, 2021. Other placement types include pre-adoptive home, runaway, supervised independent living, and trial home visit.

¹⁰All figures related to exits from care include those exiting care during the FFY.

¹¹We did not show counts for the additional breakdowns in this section because of small cell sizes.

U.S. Department of Health and Human Services, Administration for Children and Families, Children's Bureau. <https://www.childwelfare.gov/topics/systemwide/laws-policies/statutes/extensionfc/>

¹³State expenditures on services and assistance for older youth and Chafee funds is from Child Welfare Financing SFY 2020: A survey of federal, state, and local expenditures, which is publicly available on the Child Trends website. Each state

reported data based on its state fiscal year (SFY) 2020, which for most states is July 1, 2019 to June 30, 2020. AL, DC, MI, NY, and TX reported a different SFY calendar. This is the most recent year for which data are available.
