

## Survey Administration Talking Points 2025

### RG Teacher Talking Points

#### To send to other math teachers

Below top six talking points about the AM-ME (Adapted Measure of Math Engagement) survey to encourage as many students to take it as possible:

- Your responses will help us understand how to make math classes more engaging for you.
- Your responses can contribute to making math class more relevant to you.
- Your responses can help your math teachers better support you.
- The results of this survey are going to be shared with teachers helping choose a math curriculum next year.
- You'll receive a \$10 gift card for completing the survey! (It may take up to two months, but you will get it)
- This survey is a great chance to give your feedback; we want to hear from you!

#### To email their principals

Dear **Principal \_\_\_**,

All students in our school will be invited to take a **survey on math engagement**, and *your support for getting as many students to take the survey as possible is greatly appreciated.*

- Survey window: February 18-28.
  - For middle schools: students will take the survey in their math classes.
  - For high schools: students will take the survey in advisory period.
- The survey takes 10 minutes.
- The survey can help us math teachers better engage and support students, especially our Black and Latino students.
- Every student who completes the survey will get a \$10 gift card.
- All middle and high schools in BPS are doing the same survey.
- I am on the project team that created the survey, so I can answer any questions about it.

Thanks,

**\_\_RG teacher name\_\_**
